

MWSS

**NOTICE TO MAYNILAD CUSTOMERS AND THE PUBLIC**  
**NEW WATER RATES FOR THE WEST ZONE**

Effective 15 days after publication, Maynilad Water Services, Inc. (Maynilad) will implement a Rate Adjustment Limit (RAL) of 5.70% which is the change in Consumer Price Index to be applied to the 2018 Basic Charge, as recommended by MWSS Regulatory Office (RO) in its Resolution No. 2018-13-CA dated 8 December 2018 and as approved/confirmed by the MWSS Board of Trustees' (BOT) Resolution No. 2018-191-RO dated 13 December 2018.

Maynilad is an agent and contractor of the Metropolitan Waterworks and Sewerage System (MWSS) for the West Zone of the Greater Metro Manila Area, which consists of the following areas: The cities of Manila (all but portions of San Andres & Sta. Ana), Quezon City (west of San Juan River, West Avenue, EDSA, Congressional, Mindanao Ave.), the northern part starting from Districts of the Holy Spirit & Balasas Hills), Makati (west of South Super Highway), Caloocan, Las Piñas, Malabon, Mandaluyong, Navotas, Parañaque, Pasay, and Valenzuela - all in Metro Manila, the cities of Cavite, Bacoor and Imus, and the towns of Kawit, Noveleta and Rosario - all in Cavite Province. Maynilad has 12 Business Area offices across the West Zone that serve its customers.

The new schedule of water and sewer rates for all Maynilad customers is as follows:

1. WATER CHARGES A. BASIC CHARGE		Old Rate	New Rate			Old Rate	New Rate
RESIDENTIAL				SEMI-BUSINESS			
I. Those consuming 10 cu. m. or less (lifeline consumers)		(Net of lifeline discount) ₱ 91.13 /conn.	₱ 96.32 /conn.	First 10 cu.m.	₱ 155.31 /conn.	₱ 155.31 /conn.	₱ 154.16 /conn.

**Maynilad**  
What Maynilad  
customers should know

Beginning 1 January 2019, residents in the West Zone will have adjusted water rates as Maynilad implements the Consumer Price Index (CPI) adjustment of 5.70% equivalent to an average basic rate adjustment of ₱1.95/cu.m from the ₱34.29/cu.m average Basic Charge in 2018.

Maynilad was also granted a Foreign Currency Differential Adjustment (FCDA) equivalent to a negative 0.27% as applied to the newly approved 2019 Average Basic Charge of ₱36.24/cu.m. beginning 1st quarter of 2019.

Maynilad is a tariff mechanism granted to the concessionaires to allow them to recover losses or give back gains arising from the fluctuating movements of the peso against other currencies. This is because Maynilad pays foreign currency denominated Concession Fees to the MWSS, as well as loans to fund service improvement projects.

Impact on monthly water bills

Depending on their water consumption Maynilad residential customers can expect the following adjustment in their monthly water bills.

Monthly consumption (cu.m.)	Monthly bill adjustment (₱)
10	5.30
20	20.08
30	41.02

Even as we continue to invest in infrastructure that ensures water security and environmental sustainability, we continue to provide discounted rates to senior citizens and to low-income residential households consuming 10 cu.m. or less per month.

Investments in service improvement programs will be sustained

- ✓ Water Security - To support the development of additional water sources and construction of more pump stations and reservoirs
- ✓ Disaster Resiliency - To retrofit existing facilities and thus mitigate the impact of natural calamities on operations, as well as adapt to climate change
- ✓ Environmental Sustainability - To accelerate the construction of wastewater treatment facilities that will prevent harmful effluents from flowing into water bodies, thus protecting the environment and promoting community health
- ✓ Expansion - To lay new pipelines and other facilities that will bring potable water to under-served and unserved areas in the West Zone

Our commitment to provide excellent customer service stays strong

Since re-privatization in 2007, Maynilad has spent over ₱1.2 billion to improve and expand water and wastewater operations. Over 9 million people now have reliable and affordable potable water because of Maynilad's aggressive investments. Majority of its customers now have 24-hour water supply and 100% receive their water supply at an average pressure of 7 psi.

Maynilad strives to continue its programs to enhance operational efficiency, build more wastewater facilities, and lay pipes that will connect more people to its network. This is in line with the company's mission to improve the lives of the communities it serves.
